Jakarta, June 25st 2024
Attention To:
Mr. Jhon Cappucino
Resources Manager of Amerta Technology
Osaka, Japan

Dear Mr. Jhon Cappucino,

I am writing to express my interest in the Frontend Developer position at Amerta Technology. As a skilled and enthusiastic individual with a strong passion for frontend development, I am confident that I would be a valuable addition to your team.

My name is Ade Nova Wiguna and I am a fresh graduate from a vocational high school majoring in software and game development. In my studies, I have gained a solid foundation in programming languages such as JavaScript and PHP, with a focus on React JS and Laravel frameworks. Additionally, I have also worked with LiveWire and C++ libraries, allowing me to create dynamic and efficient web applications.

What sets me apart from other candidates is my ability to quickly adapt to new environments and work effectively in a team. I believe that my strong communication and problem-solving skills, combined with my technical expertise, would make me a valuable asset to Amerta Technology.

In my previous projects, I have demonstrated a strong commitment to delivering high-quality work within tight deadlines. For example, I worked on a team to develop a responsive e-commerce website using React JS and Laravel frameworks, which was completed and launched within two months. This experience has honed my ability to work well under pressure and collaborate effectively with team members.

I am excited about the opportunity to join Amerta Technology and contribute my skills and knowledge to your company. I am confident that I have the drive, skills, and passion to excel in the Frontend Developer role and make a positive impact on your team.

Thank you for considering my application. My CV is included below for your review. I look forward to the opportunity to discuss my qualifications further.

Sincerely yours,

Ade Nova Wiguna
